Prior to the XVIII European Conference on Soil Mechanics and Geotechnical Engineering, the National Laboratory for Civil Engineering (LNEC) will host the 12<sup>th</sup> Portuguese-Brazilian Geotechnical Congress (12<sup>th</sup> CLBG) and the 8<sup>th</sup> Portuguese-Spanish Geotechnical Day (8<sup>th</sup> JLEG). It is a joint organization of LNEC, the Portuguese Society for Geotechnics (SPG), the Brazilian Association for Soil Mechanics and Geotechnical Engineering (ABMS) and the Spanish Society for Soil Mechanics and Geotechnical Engineering (SEMSIG). The event is organized into three thematic sessions corresponding to the themes. Within the scope of the 12<sup>th</sup> CLBG, the IX Victor de Mello Lecture will be given by Dr. David Hight with the title "Characterisation of soils: the continuing importance of fabric and anisotropy", which will take place in the fourth and last session of the program.
